

TECNODIN

DECLARATION OF CONFORMITY

NON USE OF PROHIBITED SUBSTANCES

In compliance with the European Directives 2000/53CE (ELV), 2003/11/EC (FR), 2011/65/EC (RoHS)

TECNODIN SL declares the absence of prohibited substances in their product range.

TECNODIN SL does not manufacture the raw materials and additives used in our production processes, so we require all our suppliers to certify us that their raw materials comply with these directives and are exempt or below the permitted levels and so there is no reason to expect the presence of these substances;

- Lead and lead compounds (Pb)
- Mercury and mercury compounds (Hg)
- Composed of cadmium or cadmium (Cd)
- Composed of hexavalent chromium (Cr +6)
- Polybrominated biphenyls (PBB)
- Polybrominated biphenyls ethers (PBDEs)

Although, no qualitative or quantitative analysis intended to detect any traces of these substances are performed, it is requested to all our suppliers to inform immediately in the event of a change of any compound.
