Za: Handle in light alloy, lacquered in black and interior parts in quality 5.8 steel, blued and threaded part in quality 5 steel, blued.
Ask us about other available threads and colors (orange RAL 2004, gray RAL 9006).

If you need to double the closing force: Adjustable handles with axial bearing.
Consult.

Advantages:

- Double closing force.
- Protection of the clamped piece.
- Smaller threads with equal strength.
