

480038 FILLER PLUG KMF WITH FILTER

Code	F	Ch	h1	h2	P(L/min)
48003806000	G 1/4"	18	15,5	9	37
48003809000	G 3/8"	22	14,5	10	33
48003812000	G 1/2"	27	14,5	10	50

Brass filler cap with flat fiber gasket.
Two breather holes located under the hex head provide adequate airflow.
This version includes an internal metal filter with a filtration degree of 200 microns to avoid pollution in the oil.
These plugs are used in reducers, gearboxes, bearing housings and transmissions of all types.
Q: Air flow.
Available in AISI 316 stainless steel on request.
